PROBLEM

Wealth
inequality
is on the rise.

States With The Highest Levels Of Income Inequality
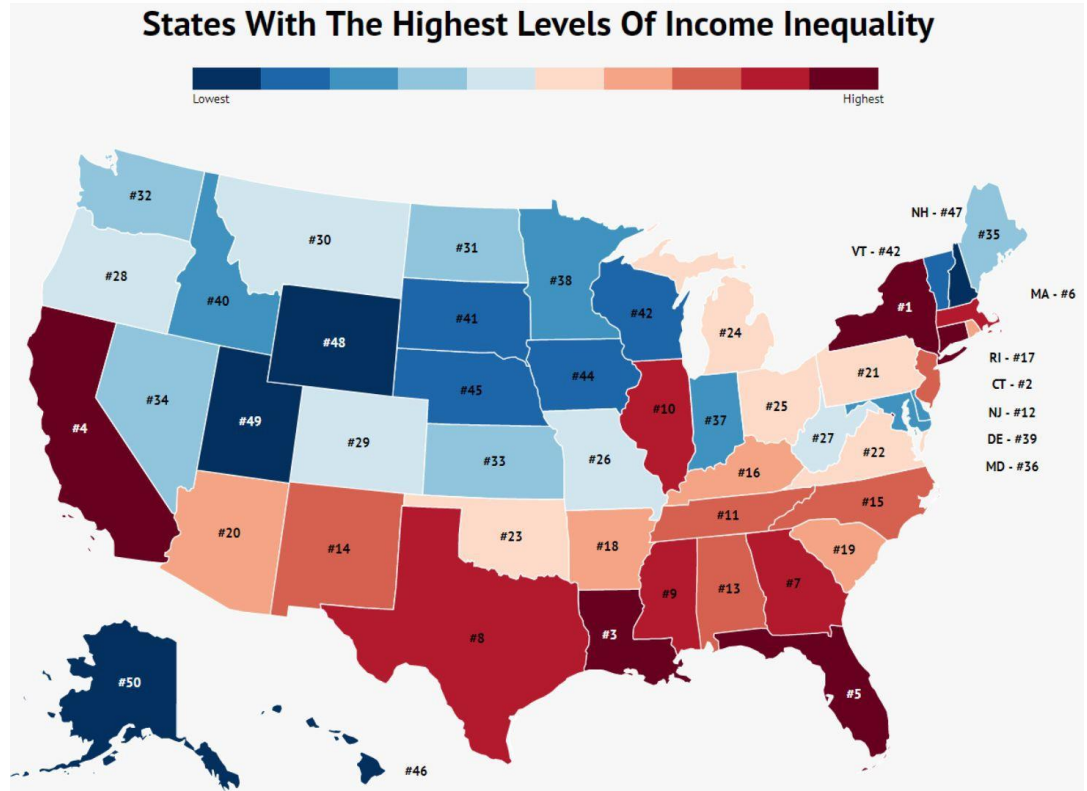

CALBRIGHT COLLEGE

Calbright can be a solution to income inequality in California. Thanks to significant investments by the State of California, Calbright is a new kind of California Community College designed to upskill and prepare more than 8 million underemployed Californians, and introduce them to their future employers.
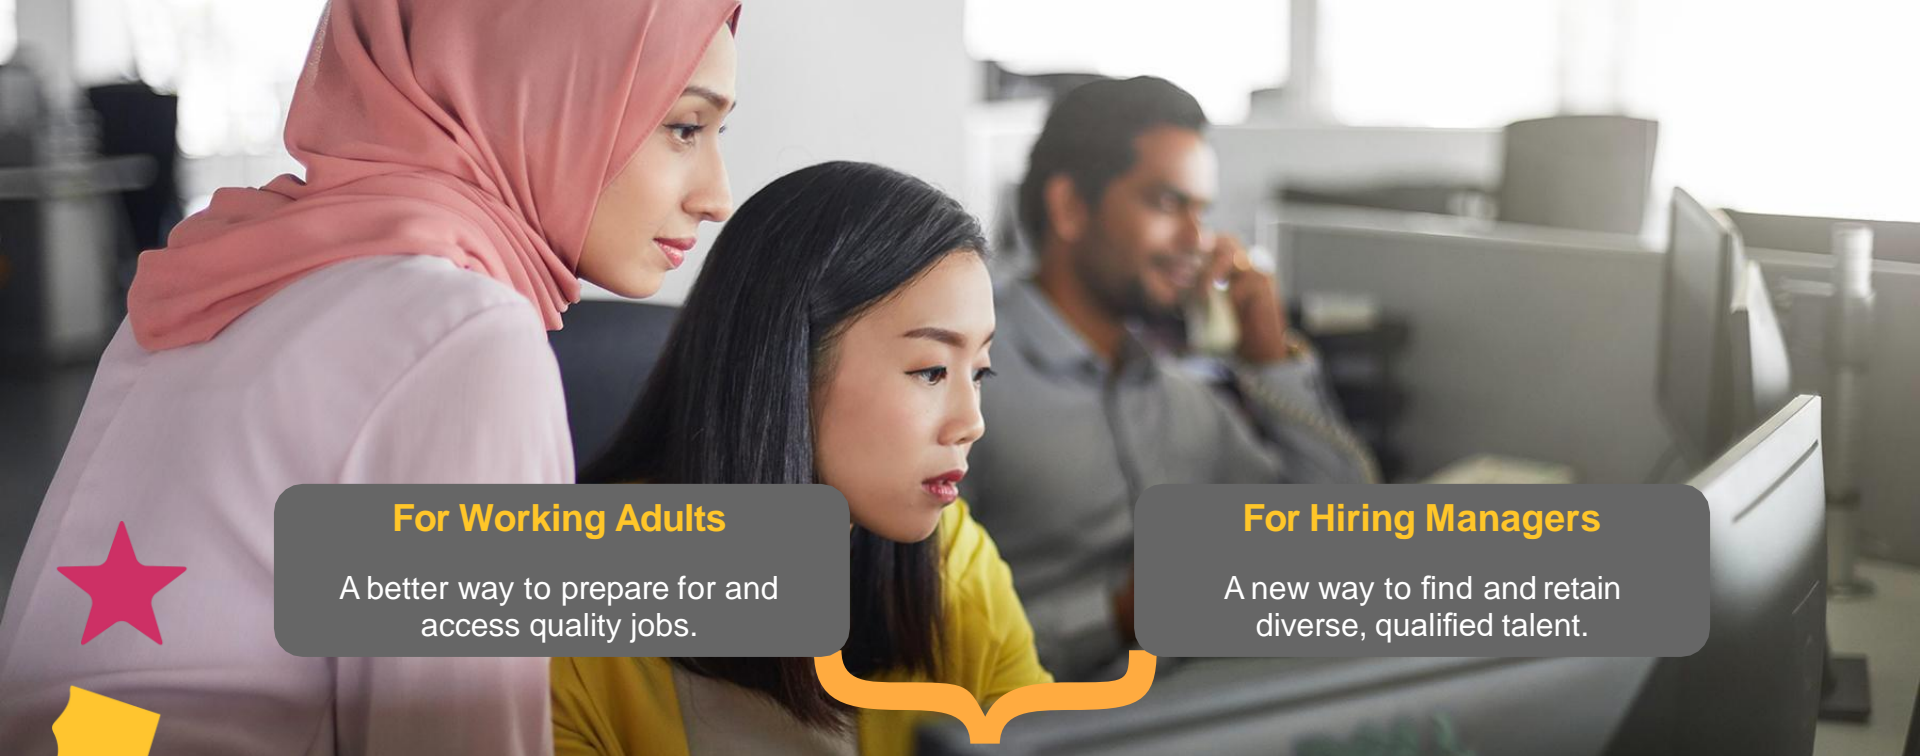

For Working Adults

A better way to prepare for and access quality jobs.

For Hiring Managers

A new way to find and retain diverse, qualified talent.

WHAT WE'RE BUILDING

A learning-to-employment online platform that creates tangible economic value for underemployed Californians and their future employers.

Accreditation Update

Calbright is in the initial stages of preparing to submit an application for eligibility to pursue national accreditation with the Distance Education Accrediting Commission (DEAC). Calbright will become eligible to submit an application to DEAC any time after October 2020. DEAC is able to accredit institutions that do not offer associate degrees. Calbright is preparing its programs, processes, and structures in order to successfully achieve the legislated accreditation milestones within the specified timelines.

Per Ed Code 75007 (b) (1): The college shall seek accreditation and meet requirements for students to become eligible for federal and state financial aid. Legislated Deadlines:
1. (75007) (b)(1)(i) By April 1, 2021: a detailed accreditation plan is due with:
   a. accrediting agency identified,
   b. accreditation process outlined (including process for meeting the 2022 and 2025 deadlines).
2. (75009) By July 1, 2021: Application for Accreditation submitted.
3. (75007) By April 1, 2022: Evidence of accreditation candidacy / pre-accreditation achieved.
4. (75007) By April 1, 2025: evidence of full accreditation achieved.
